# Hilti Fellowship

## Where potential meets opportunity!

### The Hilti Fellowship program

The Hilti Fellowship program was developed jointly by the Hilti Corporation and the University of Liechtenstein. It is a combination of practical training at Hilti and academic study at the University of Liechtenstein, designed to create the cornerstone for a successful future.

### Your opportunities

- Contribute to your Master of Science degree in Information Systems and attend additional courses
- Be part of an international project team at Hilti for one semester, working on innovative topics like cloud computing, mobile app development or memory computing
- Supported by the Hilti Chair of Business Process Management, you will become familiar with state-of-the-art technology and discuss new ideas for future Hilti projects, such as enterprise content management and customer relationship management

### Your profile

- A bachelor's degree in information systems or informatics
- Outstanding academic record and practical experience in information systems (grades/ records and any letters of recommendation must be submitted)
- Excellent communication skills in English
- Well organized personality with strong analytical and conceptual skills

### Please note

- Our target is to hire young IT talent within the fellowship program. Due to Liechtenstein visa regulations, Hilti may only hire EEA citizens. We unfortunately cannot consider applications submitted from non-EEA citizens.

### About Hilti

Hilti supplies the worldwide construction industry with technologically leading products, systems and services that provide construction professionals with innovative solutions and superior added value. Close to 22,000 Hilti team members in over 120 countries passionately create enthusiastic customers and build a better future. Hilti's corporate culture is based on integrity, teamwork, commitment and the courage to embrace change. Hilti's global information technology concentrates on standardized IT solutions that are managed from Liechtenstein, Malaysia and the USA to ensure worldwide support 24 hours a day.

### About the University of Liechtenstein

The University of Liechtenstein is an internationally recognized university, top-rated owing to its cultivation of the close connection between study and practice. Approximately 800 students are registered in the various bachelor, master and post-graduate programmes. The Hilti Chair of Business Process Management (BPM) focuses on the design of organizational systems by utilizing modern information- and communication technology. Aim of the chair is to enhance efficiency and to develop new market opportunities through innovative business models.

### Nette Narvanmaa, Hilti Fellow, Student at University of Turku

The Hilti Fellowship program helped to kick-start my career at Hilti: I learnt about the company and got to know many people. After completing the 5-month program and starting a full-time job, I was able to quickly advance to take on interesting tasks that had a great deal of responsibility.
