

## APPLICATION REQUIREMENTS FOR OUTGOING BACHELOR AND MASTER STUDENTS

### Project Portfolio

Your portfolio should include academic design projects, as well as professional projects with a description of your contributions to these projects. You are free to choose as many projects of your previous education as you wish, but all projects from your studies in the Master programme of the University of Liechtenstein must be clearly documented in adequate extent.

Include only relevant projects with appropriate information in drawings and images of models and describe briefly the programme (year, study semester, university and studio) for each project. Do not include professional architectural photographs. One page with freehand sketches is allowed. Use an adequate layout on white background. The format should be suitable for viewing on screen (for example DIN A4 landscape).

### Curriculum (CV)

Put all the information concerning your curriculum (course list, credits earned and grades) as well as a current portrait photograph on the first pages of the portfolio.

### Letter of motivation

Your name, current address, mail address

- Address of your destination
- Introduction including your name, age, level of study, your concentration and studio in the Master programme of the University of Liechtenstein as well as the name of your design instructor.
- Intentions and expectations for your exchange semester

### Data

Please submit a digital version of your portfolio. File format pdf only, file size not more than 10MB. Label the file with your name! You can upload it on your own [mobility online](#) profile. In order to get a personal profile please check the [website of the International Office](#) and login as a student first.
