UNIVERSITÄT LIECHTENSTEIN

Portfolio requirements Master's Degree Programme in Architecture

- Please use an appropriate portfolio format for assessment on screen.

- File format: PDF only. No other formats will be accepted.

- File size: maximum 10MB (a maximum of two files will be accepted)

- The file name must also include your name.

- All necessary information concerning your previous studies (course list, credits earned and grades) as well as recommendation letters and a current portrait is to be included in the first pages of your portfolio.

- Present only relevant projects from your previous studies in your portfolio. Each project should be described by a short explanation (programme, task, brief) and further explained through drawings (plans, sections, elevations etc), visualisations and photographs of study models.

- If you include professional projects you have worked on, please state clearly what your role and contribution was.

- In addition to your design projects, a maximum of one page can be assigned to free-hand drawings or other artistic work.
